

Home Learning Guidelines

Introduction

The information provided below is a guide for students, parents and teachers with regard to the amount of time that should be spent on a home learning activity. However, it should be noted that it is just guidance. The amount of time taken for each activity will vary considerably and different students are likely to take different amounts of time to complete any given activity. However, as a general rule home learning tasks should take the amount of time given below.

Year Group	Guidance (minutes)
7	25
8	30
9	30
10	45
11	50

Note: Some teachers may set significantly longer home learning activities but when this occurs it will cover more than one home learning session and the deadline will reflect this.
